DISPLAY Smart Display Show

Unlocking Infinite Possibilities

In 2025, **Smart Display Show** focusing on smart cockpits, Micro LED, and various applications. It showcased cutting-edge smart display technologies, products, and solutions that demonstrated a connected smart living ecosystem, helping companies to discover new business opportunities and leading into a limitless future!

DISPLAY Smart Display Show

Highlights in e-Paper Area

Bringing together global e-Paper industry ecosystem partners for a joint exhibition, showcasing the latest e-Paper technologies, applications, and solutions in a comprehensive manner.

SMART+ Smart Manufacturing Taiwan

From Smart Manufacturing to Cross-Domain Integration: AI Driving New Industrial Value

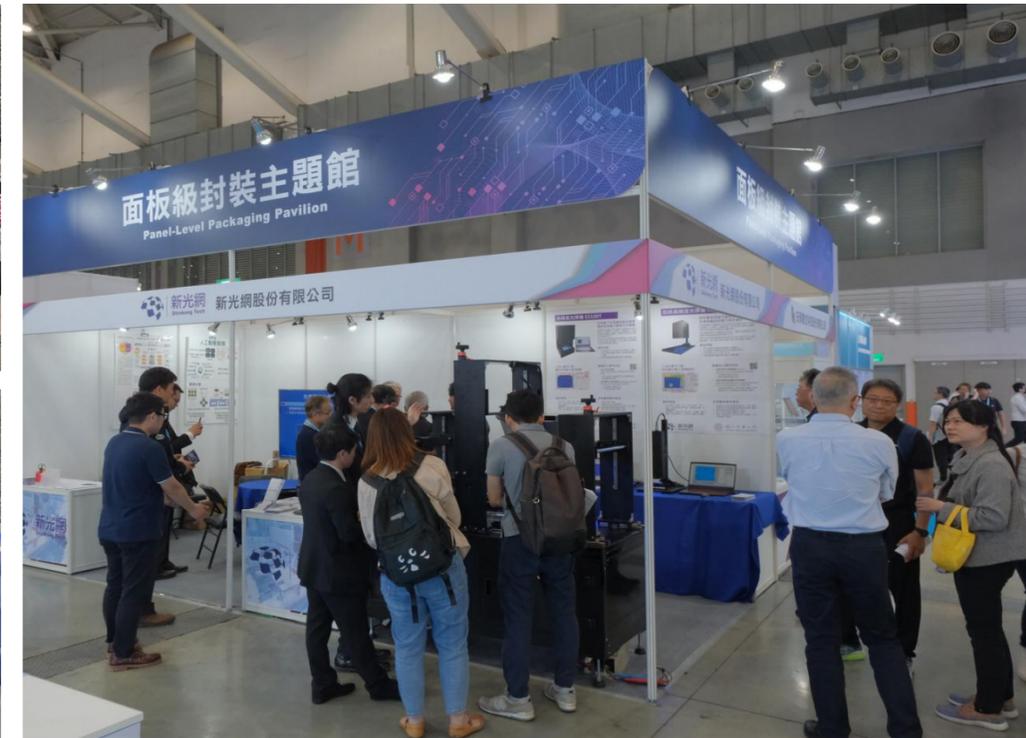

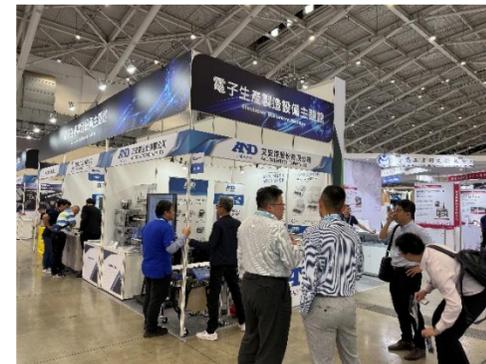

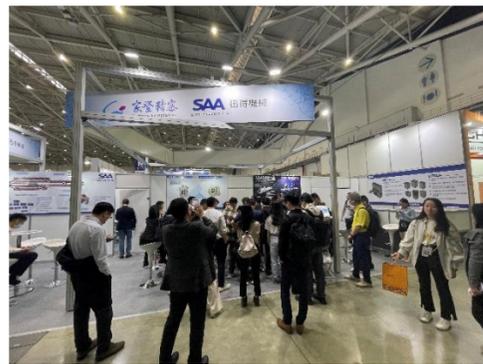

Smart Manufacturing Taiwan, as a platform that connects the domestic ICT industry, smart manufacturing, production manufacturing, and system integration supply chain. The exhibition features a diverse range of innovative technologies, applications, solutions, and interactive experiences, creating a platform for exchange and matchmaking to drive the digital transformation and upgrade of Taiwan's industries.

EQUIPMENT Electronic Equipment Exhibition

Semiconductor Packaging x Electronic Equipment

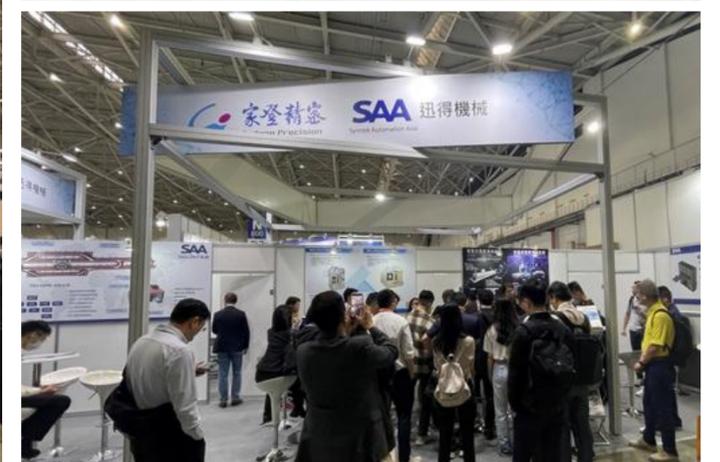

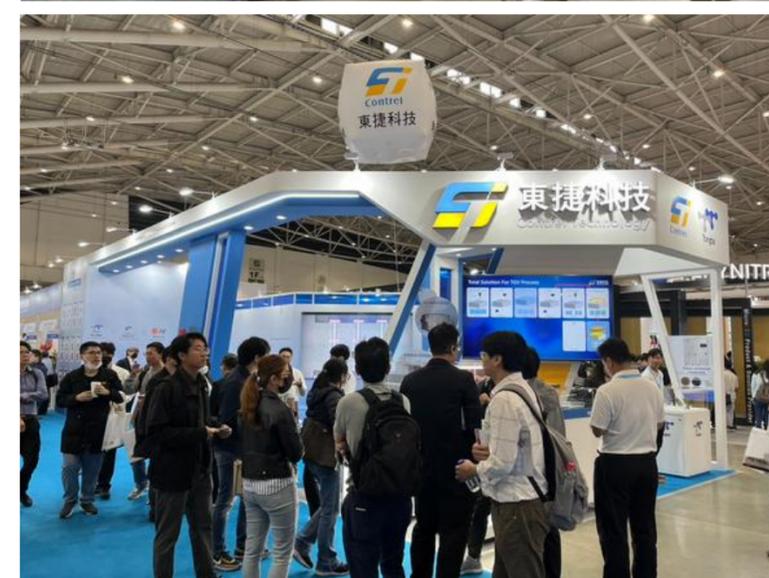

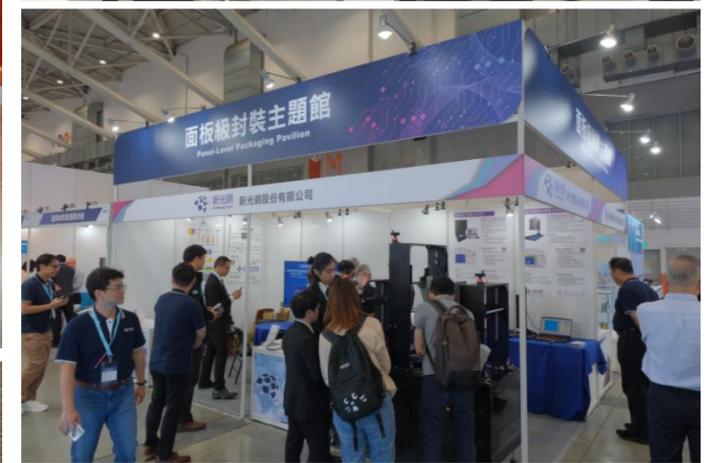

Electronic Equipment Exhibition, showcasing electronic production equipment, panel-level packaging, and dedicated themed pavilion on compound semiconductors, and advanced packaging and testing.

EQUIPMENT Electronic Equipment Exhibition

Highlights in PLP Area

PLP (Panel Level Packaging) Area attracted a wide range of supply chain participants, including leading companies in materials, equipment, and technical solutions, bringing together **38** participating companies.

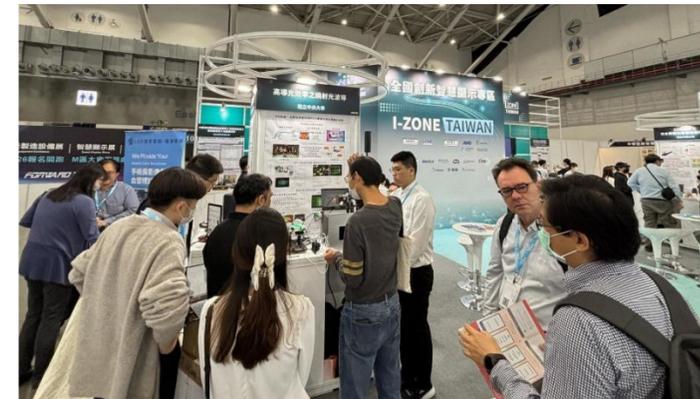

Highlights pavilions

French Touch Pavilion

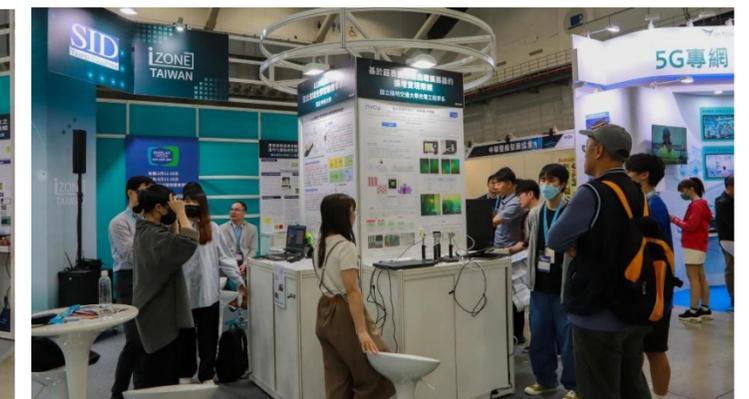

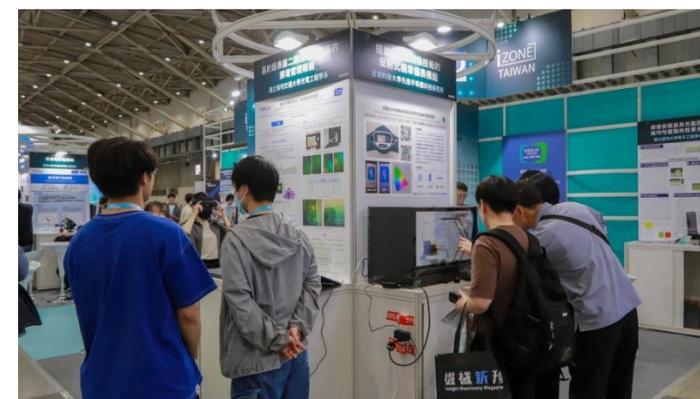

Gathering exhibitors from French to jointly showcase innovative achievements in the field of smart display technologies, fostering international industry collaboration and advancing the development of next-generation display technologies.

I-ZONE

Showcasing innovations from 10+ university teams and startups.
